

Financial Risk Management Review 2022/23

Adopted by Council on 23 March 2023

1 INTRODUCTION

The purpose of this annual Financial Risk Management review is for the Committee to consider the assessment of the Parish Council's exposure to financial risk in 2022/2023 and make any necessary changes or actions in the budget setting process for the following year. Not only is this a requirement of the Governance and Accountability for Smaller Authorities in England (a Practitioners' Guide to Proper Practices to be applied in the preparation of statutory annual accounts and governance statement - March 2019), it is also a recommendation from the internal auditor to have a separate, dedicated risk assessment.

The Committee is asked to consider the content and agree to its recommend to Council for adoption.

2 INCOME – AREAS EXPOSED TO RISKS

6. MONTHLY MONITORING AND REVIEW

At each monthly Finance & Governance Committee meeting the payments and receipts for every transaction are scrutinised and the detailed income and expenditure of each budget line is considered. Bank reconciliations are studied and if approved, signed off by the Vice-Chair of the Committee. Each quarter the Special S126 VAT Returns are also provided for information and the Petty Cash reconciliation is also approved.

At the end of each quarter the earmarked reserves are considered. Decisions to increase amounts held in the general or earmarked reserves are considered and agreed, and any transfers are actioned accordingly.

On an annual basis a review of Reserves also forms part of the budget setting process, with formal approval confirmed by Council. In year decisions to transfer funds between reserves will be considered by the Finance & Governance Committee, with a recommendation put to Council for approval.

RECOMMENDATION: That Council AGREES the financial risk assessment for 2022/2023.
